## GARAGES, BUNK HOUSES & GUEST HOMES

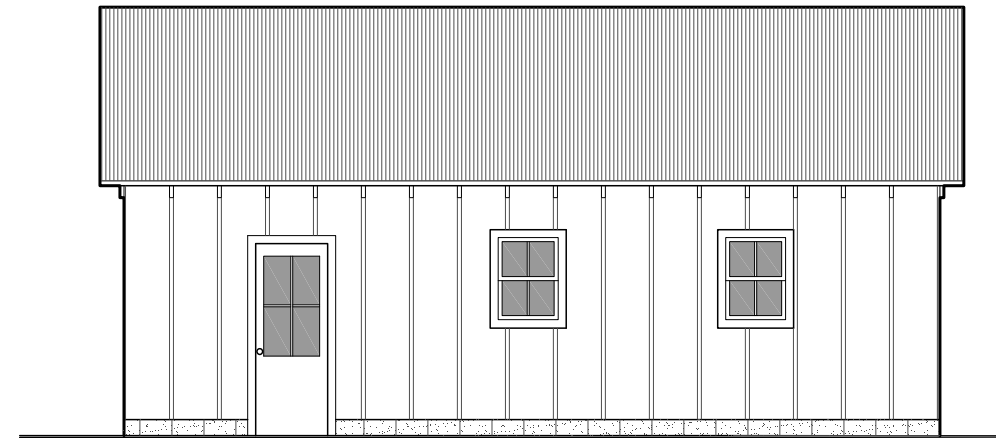

# GARAGES

Reminiscent of a country barn on the outside, the inside of your garage will be like a sports equipment store. It's the perfect place to keep your jet skis for the summer, and snowmobiles for the winter. Your canoe is suspended from the wall, waiting to glide along beds of water lilies. Badminton nets are rolled up and leaning in the corner. Tennis rackets hang from nails, and bins overflow with volleyballs, muddy shoes, and life jackets. Your car may only come to visit, but proof of your true life in The Lakeside Village of Byron is here all year long.

## Bunk Houses

The cousins are coming! All of them! They're louder than a big brass band and more rambunctious than a barrel of monkeys, and the truth is... you're really looking forward to it. It helps that you've got a Bunk House. You were able to choose to configure it for storage, or finished, with sleeping for 3, 4, 6, or 8 people. You even got to choose to put a bathroom in there. The kids all think it's the single coolest thing they've ever seen. And when the adults get to sit in peace and enjoy a glass of wine, they think it's pretty cool, too. If you choose to upgrade to a Bunk House, you also have the option of a one or two car garage.

## Guest Homes

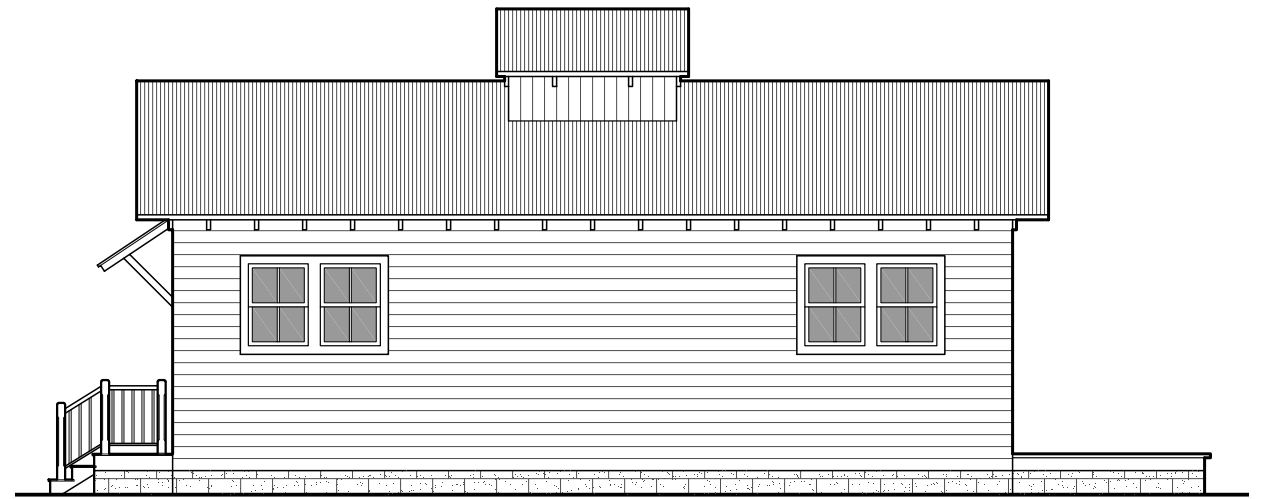

The Lakeside Village of Byron is an experience that needs to be shared. You'll want your friends to come here. You'll want your parents and your kids to come here. You might even want your mother-in-law to come here. With two floor plans to choose from, and located right on your property, the Guest Home is an easy way to offer others the very best of your lakeside escape, while still maintaining their privacy — and yours.

## Attached Guest Home and Bunk House

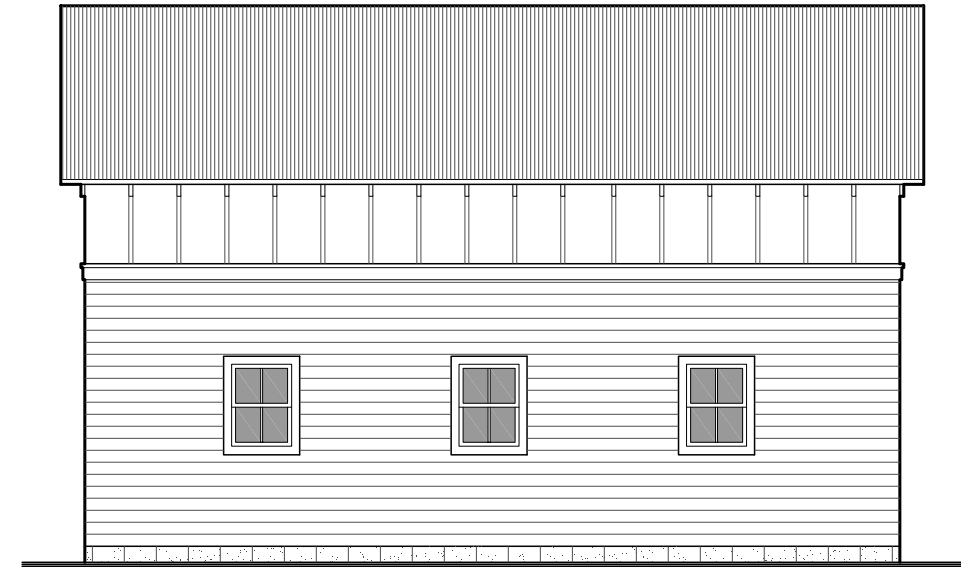

Just how popular do you want to be? Our attached Guest Home and Bunk House option provides an enormous amount of flexibility and additional space in a private building on your property. There are several options for finishes in the bunk area, letting you maximize sleeping space, storage space, or a combination of both. When an entire family visits, their kids can have the Bunk House, the parents can have the Guest Home, and you get your beautiful new lakeside home all to yourself.
